Ship Rules Reference

FLEET RULES

Fighter Replacements — Any ship carrying one or more Falkosi flights may replace any number of them with Pikatos flights or Breaching Pods. Breaching Pods taken this way carry one Troop from the parent ship and do not include Troops of their own.

TRAITS AND WEAPON RULES

AP — Add +1 to every Attack Dice result rolled for this weapon.

Comms Disruptor — A successful hit causes no damage. Instead, the target suffers a -2 penalty to all Crew Quality checks for the rest of the current turn and all of the next turn. While affected, it must also pass a Crew Quality check against Difficulty 8 to attempt any Special Action.

Jump Engine — The ship may use the Initiate Jump Point! Special Action to enter or leave hyperspace. Follow the hyperspace and jump-point rules when placing the jump point, checking for deviation, and moving ships through it.

Scout — At the start of the Attack Phase, a Scout within 36 inches may pass a Crew Quality check of 8+ to reduce one target's Stealth by 1 for the turn, or to let one non-Beam, non-Energy Mine, non-Twin-Linked weapon system attacking that target re-roll all failed Attack Dice.

Stealth — After declaring attacks against this ship, the attacker must roll at least the listed Stealth score to lock on. Apply the normal modifiers for range, Scouts, and other effects. If the lock-on roll fails, those weapons may not attack another target.

Super AP — Add +2 to every Attack Dice result rolled for this weapon.
