Ship Rules Reference

FLEET RULES

- Fighter Replacements** — Any ship carrying one or more Senti flights may replace any number of them with Razik flights or Breaching Pods. Breaching Pods taken this way carry one Troop from the parent ship and do not include Troops of their own. Rutarians may be bought separately, or up to four Senti flights may be replaced by Rutarians as one Patrol choice.
- Fighting Narn** — Centauri vessels will never surrender to the Narn and are immune to effects that would require them to surrender to Narn vessels, including Stand Down and Prepare to be Boarded!
- Mass Drivers** — A Primus may replace 5 AD of its forward Ion Cannon with one Mass Driver. An Octurion may replace 8 AD of its forward Ion Cannon with two Mass Drivers. Each Mass Driver has Range 10, Fore arc, 8 AD, and the Mass Driver, Slow-Loading, Super AP, and Triple Damage traits.

TRAITS AND WEAPON RULES

- Agile** — The ship need only move one quarter of its Speed in a straight line before making its first turn, and only 1 inch before making each subsequent turn.

AP — Add +1 to every Attack Dice result rolled for this weapon.

Beam — This weapon always hits on a roll of 4 or more, regardless of Hull. Each successful Attack Dice is rolled again and may continue scoring additional hits while it keeps rolling 4 or more. Beam weapons ignore Interceptors and may split fire only between targets within 4 inches of one another.
- Double Damage** — Double all Damage caused, including bonus Damage from Critical Hits. A Bulkhead Hit still causes 1 point of Damage.

Interceptors — Against the first incoming hit of the turn, roll a number of dice equal to the Interceptor score; any result of 2+ cancels that hit. Successful dice are rolled against the next hit needing 3+, then 4+, and so on. Failed dice are discarded. Once the required number reaches 6+, it remains 6+ for the rest of the turn. Interceptors refresh at the start of the next turn.
