TRAITS AND WEAPON RULES

Atmospheric — This ship may enter a planetary atmosphere and take part in planetary assaults, including attacking ground targets and landing troops where the relevant rules allow.

Beam — This weapon always hits on a roll of 4 or more, regardless of Hull. Each successful Attack Dice is rolled again and may continue scoring additional hits while it keeps rolling 4 or more. Beam weapons ignore Interceptors and may split fire only between targets within 4 inches of one another.

Double Damage — Double all Damage caused, including bonus Damage from Critical Hits. A Bulkhead Hit still causes 1 point of Damage.

Flight Computer — Crew Quality can never fall below 4. The ship ignores all penalties for being reduced to a Skeleton Crew, except that Troops are still halved and Fleet Carrier is still lost.

Jump Engine — The ship may use the Initiate Jump Point! Special Action to enter or leave hyperspace. Follow the hyperspace and jump-point rules when placing the jump point, checking for deviation, and moving ships through it.

Mini-Beam — Always hits on a roll of 4 or more regardless of Hull and ignores Interceptors. Unlike a Beam weapon, successful Attack Dice are not rolled again for additional hits.

Scout — At the start of the Attack Phase, a Scout within 36 inches may pass a Crew Quality check of 8+ to reduce one target's Stealth by 1 for the turn, or to let one non-Beam, non-Energy Mine, non-Twin-Linked weapon system attacking that target re-roll all failed Attack Dice.

Super AP — Add +2 to every Attack Dice result rolled for this weapon.

Twin-Linked — Any Attack Dice from this weapon that fail to hit may be re-rolled.

Unique — Only one ship with this specific profile may be included in a fleet.
