

ARMAGEDDON

Initiative: +2

CREW QUALITY _____

WEAPONS				
ARC	WEAPON	RANGE	AD	TRAITS
B	Lightning Cannon	20	8	Beam, Precise, Quad Damage
F	Improved Neutron Laser	30	6	Beam, Precise, Triple Damage
A	Improved Neutron Laser	30	4	Beam, Precise, Triple Damage
T	Heavy Pulse Cannon	12	20	Twin-Linked
T	Fusion Cannon	18	10	Mini-Beam

NOTES

If the Lightning Cannon is fired, the Victory may not fire any other weapons and will be moved forward 4" next turn. It then cannot do anything else except take damage until after the End Phase of the next turn.

CREW 110/20

A 5x20 grid of squares. The first 19 columns are white, and the 20th column is shaded pink, representing 100%.

INTERSTELLAR ALLIANCE

VICTORY-CLASS DESTROYER

ARMAGEDDON

Ship Rules Reference

FLEET RULES

No fleet rules are currently entered for this fleet.

TRAITS AND WEAPON RULES

Adaptive Armour — Halve the Damage and Crew loss caused by each separate attack, rounding down to a minimum loss of 1. Each weapon system or other single source counts as a separate attack.

Advanced Jump Engine — When this ship enters realspace, its jump point does not deviate and it may act normally that turn. A jump point created in realspace may be placed in any fire arc. Other arriving ships may act normally only if they also have Advanced Jump Engine.

Afterburner — When using the All Power to Engines! Special Action, this ship doubles its Speed for the turn instead of receiving the normal increase.

Anti-Fighter — When an enemy fighter flight moves into base contact, roll a number of Attack Dice equal to the Anti-Fighter score before the dogfight is resolved. Each die that rolls 4 or more destroys the fighter flight. Anti-Fighter may be used once per turn.

Beam — This weapon always hits on a roll of 4 or more, regardless of Hull. Each successful Attack Dice is rolled again and may continue scoring additional hits while it keeps rolling 4 or more. Beam weapons ignore Interceptors and may split fire only between targets within 4 inches of one another.

Carrier — The ship may launch or recover a number of fighter flights in a turn equal to its Carrier score, instead of the normal limit of one flight.

Command — While this ship is on the table and is neither Crippled nor reduced to a Skeleton Crew, add its Command score to the fleet's Initiative. Command bonuses are not cumulative.

Flight Computer — Crew Quality can never fall below 4. The ship ignores all penalties for being reduced to a Skeleton Crew, except that Troops are still halved and Fleet Carrier is still lost.

Interceptors — Against the first incoming hit of the turn, roll a number of dice equal to the Interceptor score; any result of 2+ cancels that hit. Successful dice are rolled against the next hit needing 3+, then 4+, and so on. Failed dice are discarded. Once the required number reaches 6+, it remains 6+ for the rest of the turn. Interceptors refresh at the start of the next turn.

Mini-Beam — Always hits on a roll of 4 or more regardless of Hull and ignores Interceptors. Unlike a Beam weapon, successful Attack Dice are not rolled again for additional hits.

Precise — Add +1 to every roll made on the Attack Table for this weapon.

Quad Damage — Quadruple all Damage caused. A Bulkhead Hit still causes at least 2 points of Damage.

Triple Damage — Triple all Damage caused. A Bulkhead Hit still causes at least 1 point of Damage.

Twin-Linked — Any Attack Dice from this weapon that fail to hit may be re-rolled.
