Ship Rules Reference

FLEET RULES

- Best of the Best** — All ships in a Psi Corps fleet receive +1 Crew Quality, to a maximum score of 6.
- EarthForce Requisition** — A Psi Corps fleet may spend up to 2 Fleet Allocation Points from its allowance on ships from one Earth Alliance fleet list.

TRAITS AND WEAPON RULES

- Interceptors** — Against the first incoming hit of the turn, roll a number of dice equal to the Interceptor score; any result of 2+ cancels that hit. Successful dice are rolled against the next hit needing 3+, then 4+, and so on. Failed dice are discarded. Once the required number reaches 6+, it remains 6+ for the rest of the turn. Interceptors refresh at the start of the next turn.

Psychic Crew — Ships may use Cause Confusion, making an opposed check with Psychic Crew instead of Crew Quality; if successful, the target is forced to move and act as directed by that rule. Fighters cannot use the action, but retain Dodge 4+ against Anti-Fighter attacks and survive elimination in a dogfight on 4+, making the dogfight a draw. Ships may also trigger Shadow Telepathic Disruption using this score.
- Scout** — At the start of the Attack Phase, a Scout within 36 inches may pass a Crew Quality check of 8+ to reduce one target's Stealth by 1 for the turn, or to let one non-Beam, non-Energy Mine, non-Twin-Linked weapon system attacking that target re-roll all failed Attack Dice.

Stealth — After declaring attacks against this ship, the attacker must roll at least the listed Stealth score to lock on. Apply the normal modifiers for range, Scouts, and other effects. If the lock-on roll fails, those weapons may not attack another target.

Twin-Linked — Any Attack Dice from this weapon that fail to hit may be re-rolled.
