SHIP TRAITS	NOTES
Advanced Anti-Fighter 8, Advanced Jump Engine, Flight Computer, Self-Repairing 4D6	Hyperplasma Cutters: For each Hyperplasma Cutter that attacks the same target in a turn, add 2 AD. Hyperspace Mastery: The Triumviron may enter realspace from hyperspace at any point without risk of deviation. It may move, attack, and otherwise act normally during the turn it leaves hyperspace, and no Jump Point counter is placed. It must use Initiate Jump Engine! to enter hyperspace; instead of placing a Jump Point counter, remove it into hyperspace at the beginning of its next turn.

TRAITS AND WEAPON RULES

Advanced Anti-Fighter — Use the normal Anti-Fighter rules, but add +1 to every Anti-Fighter die roll.

Advanced Jump Engine — When this ship enters realspace, its jump point does not deviate and it may act normally that turn. A jump point created in realspace may be placed in any fire arc. Other arriving ships may act normally only if they also have Advanced Jump Engine.

Beam — This weapon always hits on a roll of 4 or more, regardless of Hull. Each successful Attack Dice is rolled again and may continue scoring additional hits while it keeps rolling 4 or more. Beam weapons ignore Interceptors and may split fire only between targets within 4 inches of one another.

Flight Computer — Crew Quality can never fall below 4. The ship ignores all penalties for being reduced to a Skeleton Crew, except that Troops are still halved and Fleet Carrier is still lost.

Precise — Add +1 to every roll made on the Attack Table for this weapon.

Self-Repairing — Add +1 to all Damage Control checks. In each End Phase while below starting Damage, regain Damage equal to the Self-Repairing score, up to the starting total. Once Crippled, the ship remains Crippled even if repaired above the threshold.

Triple Damage — Triple all Damage caused. A Bulkhead Hit still causes at least 1 point of Damage.
