Ship Rules Reference

FLEET RULES

No fleet rules are currently entered for this fleet.

TRAITS AND WEAPON RULES

Advanced Jump Engine — When this ship enters realspace, its jump point does not deviate and it may act normally that turn. A jump point created in realspace may be placed in any fire arc. Other arriving ships may act normally only if they also have Advanced Jump Engine.

AP — Add +1 to every Attack Dice result rolled for this weapon.

Beam — This weapon always hits on a roll of 4 or more, regardless of Hull. Each successful Attack Dice is rolled again and may continue scoring additional hits while it keeps rolling 4 or more. Beam weapons ignore Interceptors and may split fire only between targets within 4 inches of one another.

Double Damage — Double all Damage caused, including bonus Damage from Critical Hits. A Bulkhead Hit still causes 1 point of Damage.

Flight Computer — Crew Quality can never fall below 4. The ship ignores all penalties for being reduced to a Skeleton Crew, except that Troops are still halved and Fleet Carrier is still lost.

Gravitic Energy Grid — Reduce the total Damage and Crew loss caused by each separate weapon attack by the Gravitic Energy Grid score. Damage and special effects from Critical Hits are never reduced.

Precise — Add +1 to every roll made on the Attack Table for this weapon.

Twin-Linked — Any Attack Dice from this weapon that fail to hit may be re-rolled.
