Ship Rules Reference

FLEET RULES

- Crew** — Vorlon vessels have no Crew or Troops score. They cannot be boarded or initiate boarding actions and ignore all critical hits that affect Crew.
- Redundant Systems** — Vorlon vessels take damage normally, but automatically repair all critical hits, including Vital Systems criticals, in the End Phase of the following turn.
- Special Actions** — Vorlon vessels may use only Activate Jump Gate!, All Stop!, All Stop and Pivot!, Come About!, Initiate Jump Point!, and Run Silent!
- Superior Technology** — Vorlon vessels receive +1 on rolls made to overcome an enemy ship's Stealth.

TRAITS AND WEAPON RULES

- Adaptive Armour** — Halve the Damage and Crew loss caused by each separate attack, rounding down to a minimum loss of 1. Each weapon system or other single source counts as a separate attack.

Advanced Anti-Fighter — Use the normal Anti-Fighter rules, but add +1 to every Anti-Fighter die roll.

Advanced Jump Engine — When this ship enters realspace, its jump point does not deviate and it may act normally that turn. A jump point created in realspace may be placed in any fire arc. Other arriving ships may act normally only if they also have Advanced Jump Engine.

Beam — This weapon always hits on a roll of 4 or more, regardless of Hull. Each successful Attack Dice is rolled again and may continue scoring additional hits while it keeps rolling 4 or more. Beam weapons ignore Interceptors and may split fire only between targets within 4 inches of one another.
- Double Damage** — Double all Damage caused, including bonus Damage from Critical Hits. A Bulkhead Hit still causes 1 point of Damage.

Flight Computer — Crew Quality can never fall below 4. The ship ignores all penalties for being reduced to a Skeleton Crew, except that Troops are still halved and Fleet Carrier is still lost.

Precise — Add +1 to every roll made on the Attack Table for this weapon.

Self-Repairing — Add +1 to all Damage Control checks. In each End Phase while below starting Damage, regain Damage equal to the Self-Repairing score, up to the starting total. Once Crippled, the ship remains Crippled even if repaired above the threshold.
