Ship Rules Reference

SHIP NAME _____

FLEET RULES

No fleet rules are currently entered for this fleet.

TRAITS AND WEAPON RULES

Anti-Fighter — When an enemy fighter flight moves into base contact, roll a number of Attack Dice equal to the Anti-Fighter score before the dogfight is resolved. Each die that rolls 4 or more destroys the fighter flight. Anti-Fighter may be used once per turn.

AP — Add +1 to every Attack Dice result rolled for this weapon.

Beam — This weapon always hits on a roll of 4 or more, regardless of Hull. Each successful Attack Dice is rolled again and may continue scoring additional hits while it keeps rolling 4 or more. Beam weapons ignore Interceptors and may split fire only between targets within 4 inches of one another.

Carrier — The ship may launch or recover a number of fighter flights in a turn equal to its Carrier score, instead of the normal limit of one flight.

Double Damage — Double all Damage caused, including bonus Damage from Critical Hits. A Bulkhead Hit still causes 1 point of Damage.

Gravitic Shifter — This weapon has no Attack Dice. Nominate an enemy in range and arc, then make opposed Crew Quality checks. If the attacker wins, the target may immediately be turned up to 45 degrees in either direction.

Jump Engine — The ship may use the Initiate Jump Point! Special Action to enter or leave hyperspace. Follow the hyperspace and jump-point rules when placing the jump point, checking for deviation, and moving ships through it.

Lumbering — The ship may make only one turn during its movement, regardless of the number of turns shown in its profile.

Precise — Add +1 to every roll made on the Attack Table for this weapon.

Shields — The first value is the number of hits the shield can absorb. Double, Triple, and Quad Damage hits remove 2, 3, or 4 shield points. Excess hits pass to the hull. The second value is regenerated automatically in each End Phase. Shields cease functioning while the ship is Crippled.

Slow-Loading — This weapon may fire only every other turn. If it fails to lock on to a Stealth target, it does not count as fired.

Triple Damage — Triple all Damage caused. A Bulkhead Hit still causes at least 1 point of Damage.

Twin-Linked — Any Attack Dice from this weapon that fail to hit may be re-rolled.
