SHIP NAME _____

Ship Rules Reference

FLEET RULES
Fighter Replacements — Any ship carrying one or more Senti flights may replace any number of them with Razik flights or Breaching Pods. Breaching Pods taken this way carry one Troop from the parent ship and do not include Troops of their own. Rutarians may be bought separately, or up to four Senti flights may be replaced by Rutarians as one Patrol choice. Fighting Narn — Centauri vessels will never surrender to the Narn and are immune to effects that would require them to surrender to Narn vessels, including Stand Down and Prepare to be Boarded! Guardian Array — A Centauri ship with both Escort and Interceptors may lend any or all of its Interceptor dice to one friendly ship within 8 inches and line of sight. Dice may be assigned after an attack is declared, but once rolling begins they cannot be taken back or increased. The Escort ship may still provide its normal anti-fighter protection. The official FAQ confirms that Guardian Array may also grant Interceptor dice to friendly fighter flights. Hunting Packs — A Hunting Pack is a special Centauri squadron of up to six ships, none above Raid priority. Every ship in the pack must attack the same target in a turn, though ships in the same enemy squadron may be treated as that target. If at least one pack member has the target in range, every other member may increase the range of all its weapons by half when attacking that target. Mass Drivers — A Primus or Secundus may replace 5 AD of its forward Ion Cannon with one Mass Driver. An Octurion may replace 8 AD of its forward Ion Cannon with two Mass Drivers. Each Mass Driver has Range 10, Fore arc, 8 AD, and the Mass Driver, Slow-Loading, Super AP, and Triple Damage traits.

TRAITS AND WEAPON RULES	
AP — Add +1 to every Attack Dice result rolled for this weapon. Beam — This weapon always hits on a roll of 4 or more, regardless of Hull. Each successful Attack Dice is rolled again and may continue scoring additional hits while it keeps rolling 4 or more. Beam weapons ignore Interceptors and may split fire only between targets within 4 inches of one another.	Double Damage — Double all Damage caused, including bonus Damage from Critical Hits. A Bulkhead Hit still causes 1 point of Damage. Jump Engine — The ship may use the Initiate Jump Point! Special Action to enter or leave hyperspace. Follow the hyperspace and jump-point rules when placing the jump point, checking for deviation, and moving ships through it. Precise — Add +1 to every roll made on the Attack Table for this weapon.
