Ship Rules Reference

SHIP NAME _____

FLEET RULES

Fighter Replacements — Any ship carrying one or more Aurora Starfury flights may replace any number of them with Badgers, Thunderbolts, or Breaching Pods. Breaching Pods taken this way carry one Troop from the parent ship and do not include Troops of their own. Firebolts may be bought separately, or up to four other Starfury flights may be replaced by Firebolts as one Patrol choice.

TRAITS AND WEAPON RULES

Anti-Fighter — When an enemy fighter flight moves into base contact, roll a number of Attack Dice equal to the Anti-Fighter score before the dogfight is resolved. Each die that rolls 4 or more destroys the fighter flight. Anti-Fighter may be used once per turn.

Beam — This weapon always hits on a roll of 4 or more, regardless of Hull. Each successful Attack Dice is rolled again and may continue scoring additional hits while it keeps rolling 4 or more. Beam weapons ignore Interceptors and may split fire only between targets within 4 inches of one another.

Interceptors — Against the first incoming hit of the turn, roll a number of dice equal to the Interceptor score; any result of 2+ cancels that hit. Successful dice are rolled against the next hit needing 3+, then 4+, and so on. Failed dice are discarded. Once the required number reaches 6+, it remains 6+ for the rest of the turn. Interceptors refresh at the start of the next turn.

Jump Engine — The ship may use the Initiate Jump Point! Special Action to enter or leave hyperspace. Follow the hyperspace and jump-point rules when placing the jump point, checking for deviation, and moving ships through it.

Scout — At the start of the Attack Phase, a Scout within 36 inches may pass a Crew Quality check of 8+ to reduce one target's Stealth by 1 for the turn, or to let one non-Beam, non-Energy Mine, non-Twin-Linked weapon system attacking that target re-roll all failed Attack Dice.

Stealth — After declaring attacks against this ship, the attacker must roll at least the listed Stealth score to lock on. Apply the normal modifiers for range, Scouts, and other effects. If the lock-on roll fails, those weapons may not attack another target.
