NOTES

If the Klikkitak moves into contact with an enemy ship, it launches an automatic 1 AD attack at the end of the Movement Phase, after all Anti-Fighter dice have been rolled. The attack has Double Damage, Precise and Super AP, and ignores Interceptors.

After the attack, the Klikkitak is removed from play and may not be regained with Fleet Carrier. It is still removed if the target successfully Dodges.

When in contact with an enemy fighter flight, the Klikkitak does not use its suicide attack. It dogfights normally and may not act as an Interceptor.

Fighter Rules Reference**TRAITS AND WEAPON RULES**

Dodge — Whenever the ship suffers a hit, roll one die. If the result equals or exceeds its Dodge score, ignore the attack completely. A ship that is Adrift, unable to move, or did not move in the Movement Phase cannot use Dodge. Dodge does not protect against Energy Mines or Jump Points.

Fighter — Fighter flights have no Damage or Crew score, are destroyed by the first hit they suffer, and may never attempt Special Actions.
