TRAITS AND WEAPON RULES

Breaching Pod — Counts as a Fighter but automatically loses any Dogfight, cannot make planetary assaults, and cannot act as an interceptor. It carries one Troop; after moving into base contact with a ship or station, that Troop fights first in the boarding action.

Dodge — Whenever the ship suffers a hit, roll one die. If the result equals or exceeds its Dodge score, ignore the attack completely. A ship that is Adrift, unable to move, or did not move in the Movement Phase cannot use Dodge. Dodge does not protect against Energy Mines or Jump Points.

Stealth — After declaring attacks against this ship, the attacker must roll at least the listed Stealth score to lock on. Apply the normal modifiers for range, Scouts, and other effects. If the lock-on roll fails, those weapons may not attack another target.
