SHIP TRAITS	NOTES
Advanced Jump Engine, Agile, Scout, Stealth 6+	Techno Mage ships never suffer Crew Damage. Uses the Shadows' Hyperspace Mastery special rules. Dreamers and Shapers: As a Special Action, choose one of the following options. Regain 1D6 lost Damage. Move immediately up to 10 inches in any direction and choose any facing. On a Crew Quality 10 check, also create two dummy Techno Mage ships. The real ship need not be identified. Dummies move and take damage normally, but cannot attack or use Special Actions. Remove a dummy if it is destroyed or moves more than 20 inches from the real ship. Remove both dummies when the real ship attacks or uses another Special Action. Use the Shadows' Jump Engine Disruptor special rule at a range of 12 inches. Prepare to deflect Beam attacks. When attacked by a Beam weapon, make a Crew Quality 9 check. On success, reflect the attack back at the attacker and resolve its Damage normally. Increase the target number by 1 after each Beam weapon successfully reflected.

Ship Rules Reference

SHIP NAME _____

FLEET RULES

No fleet rules are currently entered for this fleet.

TRAITS AND WEAPON RULES

Advanced Jump Engine — When this ship enters realspace, its jump point does not deviate and it may act normally that turn. A jump point created in realspace may be placed in any fire arc. Other arriving ships may act normally only if they also have Advanced Jump Engine.

Agile — The ship need only move one quarter of its Speed in a straight line before making its first turn, and only 1 inch before making each subsequent turn.

Precise — Add +1 to every roll made on the Attack Table for this weapon.

Scout — At the start of the Attack Phase, a Scout within 36 inches may pass a Crew Quality check of 8+ to reduce one target's Stealth by 1 for the turn, or to let one non-Beam, non-Energy Mine, non-Twin-Linked weapon system attacking that target re-roll all failed Attack Dice.

Stealth — After declaring attacks against this ship, the attacker must roll at least the listed Stealth score to lock on. Apply the normal modifiers for range, Scouts, and other effects. If the lock-on roll fails, those weapons may not attack another target.

Super AP — Add +2 to every Attack Dice result rolled for this weapon.

Triple Damage — Triple all Damage caused. A Bulkhead Hit still causes at least 1 point of Damage.
