Ship Rules Reference

SHIP NAME _____

FLEET RULES

- Best of the Best** — All ships in a Psi Corps fleet receive +1 Crew Quality, to a maximum score of 6.
- EarthForce Requisition** — A Psi Corps fleet may spend up to 2 Fleet Allocation Points from its allowance on ships from one Earth Alliance fleet list.

TRAITS AND WEAPON RULES

- Advanced Jump Engine** — When this ship enters realspace, its jump point does not deviate and it may act normally that turn. A jump point created in realspace may be placed in any fire arc. Other arriving ships may act normally only if they also have Advanced Jump Engine.
- Anti-Fighter** — When an enemy fighter flight moves into base contact, roll a number of Attack Dice equal to the Anti-Fighter score before the dogfight is resolved. Each die that rolls 4 or more destroys the fighter flight. Anti-Fighter may be used once per turn.
- Lumbering** — The ship may make only one turn during its movement, regardless of the number of turns shown in its profile.

- Psychic Crew** — Ships may use Cause Confusion, making an opposed check with Psychic Crew instead of Crew Quality; if successful, the target is forced to move and act as directed by that rule. Fighters cannot use the action, but retain Dodge 4+ against Anti-Fighter attacks and survive elimination in a dogfight on 4+, making the dogfight a draw. Ships may also trigger Shadow Telepathic Disruption using this score.
- Stealth** — After declaring attacks against this ship, the attacker must roll at least the listed Stealth score to lock on. Apply the normal modifiers for range, Scouts, and other effects. If the lock-on roll fails, those weapons may not attack another target.
