Ship Rules Reference

FLEET RULES

- Best of the Best** — All ships in a Psi Corps fleet receive +1 Crew Quality, to a maximum score of 6.
- EarthForce Requisition** — A Psi Corps fleet may spend up to 2 Fleet Allocation Points from its allowance on ships from one Earth Alliance fleet list.

TRAITS AND WEAPON RULES

- Advanced Jump Engine** — When this ship enters realspace, its jump point does not deviate and it may act normally that turn. A jump point created in realspace may be placed in any fire arc. Other arriving ships may act normally only if they also have Advanced Jump Engine.
- Anti-Fighter** — When an enemy fighter flight moves into base contact, roll a number of Attack Dice equal to the Anti-Fighter score before the dogfight is resolved. Each die that rolls 4 or more destroys the fighter flight. Anti-Fighter may be used once per turn.
- Beam** — This weapon always hits on a roll of 4 or more, regardless of Hull. Each successful Attack Dice is rolled again and may continue scoring additional hits while it keeps rolling 4 or more. Beam weapons ignore Interceptors and may split fire only between targets within 4 inches of one another.

- Precise** — Add +1 to every roll made on the Attack Table for this weapon.
- Self-Repair** — In the End Phase, regain Damage equal to the listed Self-Repair score, up to the ship's starting Damage. A ship that has become Crippled remains Crippled even if later repairs take it above the threshold.
- Stealth** — After declaring attacks against this ship, the attacker must roll at least the listed Stealth score to lock on. Apply the normal modifiers for range, Scouts, and other effects. If the lock-on roll fails, those weapons may not attack another target.
- Triple Damage** — Triple all Damage caused. A Bulkhead Hit still causes at least 1 point of Damage.
