SHIP NAME _____

Ship Rules Reference

FLEET RULES

- Best of the Best** — All ships in a Psi Corps fleet receive +1 Crew Quality, to a maximum score of 6.
- EarthForce Requisition** — A Psi Corps fleet may spend up to 2 Fleet Allocation Points from its allowance on ships from one Earth Alliance fleet list.

TRAITS AND WEAPON RULES

- Advanced Jump Engine** — When this ship enters realspace, its jump point does not deviate and it may act normally that turn. A jump point created in realspace may be placed in any fire arc. Other arriving ships may act normally only if they also have Advanced Jump Engine.
- Anti-Fighter** — When an enemy fighter flight moves into base contact, roll a number of Attack Dice equal to the Anti-Fighter score before the dogfight is resolved. Each die that rolls 4 or more destroys the fighter flight. Anti-Fighter may be used once per turn.
- Beam** — This weapon always hits on a roll of 4 or more, regardless of Hull. Each successful Attack Dice is rolled again and may continue scoring additional hits while it keeps rolling 4 or more. Beam weapons ignore Interceptors and may split fire only between targets within 4 inches of one another.
- Double Damage** — Double all Damage caused, including bonus Damage from Critical Hits. A Bulkhead Hit still causes 1 point of Damage.

- Interceptors** — Against the first incoming hit of the turn, roll a number of dice equal to the Interceptor score; any result of 2+ cancels that hit. Successful dice are rolled against the next hit needing 3+, then 4+, and so on. Failed dice are discarded. Once the required number reaches 6+, it remains 6+ for the rest of the turn. Interceptors refresh at the start of the next turn.
- Lumbering** — The ship may make only one turn during its movement, regardless of the number of turns shown in its profile.
- Psychic Crew** — Ships may use Cause Confusion, making an opposed check with Psychic Crew instead of Crew Quality; if successful, the target is forced to move and act as directed by that rule. Fighters cannot use the action, but retain Dodge 4+ against Anti-Fighter attacks and survive elimination in a dogfight on 4+, making the dogfight a draw. Ships may also trigger Shadow Telepathic Disruption using this score.
- Stealth** — After declaring attacks against this ship, the attacker must roll at least the listed Stealth score to lock on. Apply the normal modifiers for range, Scouts, and other effects. If the lock-on roll fails, those weapons may not attack another target.
- Twin-Linked** — Any Attack Dice from this weapon that fail to hit may be re-rolled.
