Ship Rules Reference

SHIP NAME _____

FLEET RULES

Allied Fleets — A Raiders fleet may spend 1 Fleet Allocation Point from its allowance on ships from one of these fleet lists: Abbai Matriarchy, Brakiri Syndicracy, Drazi Freehold, Gaim Intelligence, pak'ma'ra, or Vree Conglomerate.

Fighter Replacements — Any ship carrying one or more Delta-V flights may replace any number of them with Breaching Pods. Breaching Pods taken this way carry one Troop from the parent ship and do not include Troops of their own. Up to eight Delta-V flights carried by ships may be replaced by Delta-V2 flights as one Patrol choice.

TRAITS AND WEAPON RULES

Anti-Fighter — When an enemy fighter flight moves into base contact, roll a number of Attack Dice equal to the Anti-Fighter score before the dogfight is resolved. Each die that rolls 4 or more destroys the fighter flight. Anti-Fighter may be used once per turn.

Beam — This weapon always hits on a roll of 4 or more, regardless of Hull. Each successful Attack Dice is rolled again and may continue scoring additional hits while it keeps rolling 4 or more. Beam weapons ignore Interceptors and may split fire only between targets within 4 inches of one another.

Double Damage — Double all Damage caused, including bonus Damage from Critical Hits. A Bulkhead Hit still causes 1 point of Damage.

Interceptors — Against the first incoming hit of the turn, roll a number of dice equal to the Interceptor score; any result of 2+ cancels that hit. Successful dice are rolled against the next hit needing 3+, then 4+, and so on. Failed dice are discarded. Once the required number reaches 6+, it remains 6+ for the rest of the turn. Interceptors refresh at the start of the next turn.

Jump Engine — The ship may use the Initiate Jump Point! Special Action to enter or leave hyperspace. Follow the hyperspace and jump-point rules when placing the jump point, checking for deviation, and moving ships through it.

Lumbering — The ship may make only one turn during its movement, regardless of the number of turns shown in its profile.

Twin-Linked — Any Attack Dice from this weapon that fail to hit may be re-rolled.

Weak — Apply -1 to every Attack Dice result rolled for this weapon.
