Ship Rules Reference

SHIP NAME _____

FLEET RULES

- Allied Fleets** — A Raiders fleet may spend 1 Fleet Allocation Point from its allowance on ships from one of these fleet lists: Abbai Matriarchy, Brakiri Syndicracy, Drazi Freehold, Gaim Intelligence, pak'ma'ra, or Vree Conglomerate.
- Fighter Replacements** — Any ship carrying one or more Delta-V flights may replace any number of them with Breaching Pods. Breaching Pods taken this way carry one Troop from the parent ship and do not include Troops of their own. Up to eight Delta-V flights carried by ships may be replaced by Delta-V2 flights as one Patrol choice.

TRAITS AND WEAPON RULES

- Anti-Fighter** — When an enemy fighter flight moves into base contact, roll a number of Attack Dice equal to the Anti-Fighter score before the dogfight is resolved. Each die that rolls 4 or more destroys the fighter flight. Anti-Fighter may be used once per turn.

Carrier — The ship may launch or recover a number of fighter flights in a turn equal to its Carrier score, instead of the normal limit of one flight.
- Fleet Carrier** — May deploy up to half its carried flights before battle. While operational, all fighter flights in the fleet gain +1 Dogfight. When a friendly fighter within 30 inches is removed, roll 5+ to recover it for relaunch next turn; apply -1 if an enemy ship was within 4 inches or it was lost in a dogfight, and +1 if within 10 inches of the carrier. Only craft the carrier could normally carry may be recovered. All benefits are lost if the carrier is Crippled or on Skeleton Crew.

Jump Engine — The ship may use the Initiate Jump Point! Special Action to enter or leave hyperspace. Follow the hyperspace and jump-point rules when placing the jump point, checking for deviation, and moving ships through it.

Lumbering — The ship may make only one turn during its movement, regardless of the number of turns shown in its profile.
