THE LORDSHIP

ANCIENT

Initiative: +4

Ancient Rules Reference

SHIP NAME _____

FLEET RULES

- Crew** — Ancient vessels have no Crew or Troops score. They cannot be boarded or initiate boarding actions and are immune to Critical Hits that affect Crew.
- Crew Quality** — All Ancients are considered to have Crew Quality 7.
- Initiative** — A fleet consisting of Ancients has an Initiative score of +4.
- Priority Level** — Ancient is a Priority Level above Armageddon. One Ancient ship is equivalent to 2 Armageddon, 4 War, 8 Battle, 12 Raid, 18 Skirmish, or 30 Patrol ships. Fleet Allocation Points may be split normally.
- Redundant Systems** — Ancient vessels take damage normally, but every Critical Hit is automatically repaired in the End Phase of the following turn. Critical Hits to Vital Systems are repaired at the same time.
- Stealth Penetration** — Ancient vessels ignore the Stealth score of every target.

TRAITS AND WEAPON RULES

- Adaptive Armour** — Halve the Damage and Crew loss caused by each separate attack, rounding down to a minimum loss of 1. Each weapon system or other single source counts as a separate attack.

Advanced Anti-Fighter — Use the normal Anti-Fighter rules, but add +1 to every Anti-Fighter die roll.

Advanced Jump Engine — When this ship enters realspace, its jump point does not deviate and it may act normally that turn. A jump point created in realspace may be placed in any fire arc. Other arriving ships may act normally only if they also have Advanced Jump Engine.

Beam — This weapon always hits on a roll of 4 or more, regardless of Hull. Each successful Attack Dice is rolled again and may continue scoring additional hits while it keeps rolling 4 or more. Beam weapons ignore Interceptors and may split fire only between targets within 4 inches of one another.
- Flight Computer** — Crew Quality can never fall below 4. The ship ignores all penalties for being reduced to a Skeleton Crew, except that Troops are still halved and Fleet Carrier is still lost.

Mini-Beam — Always hits on a roll of 4 or more regardless of Hull and ignores Interceptors. Unlike a Beam weapon, successful Attack Dice are not rolled again for additional hits.

Precise — Add +1 to every roll made on the Attack Table for this weapon.

Self-Repairing — Add +1 to all Damage Control checks. In each End Phase while below starting Damage, regain Damage equal to the Self-Repairing score, up to the starting total. Once Crippled, the ship remains Crippled even if repaired above the threshold.

Triple Damage — Triple all Damage caused. A Bulkhead Hit still causes at least 1 point of Damage.
