Ship Rules Reference

SHIP NAME _____

FLEET RULES

No fleet rules are currently entered for this fleet.

TRAITS AND WEAPON RULES

Advanced Jump Engine — When this ship enters realspace, its jump point does not deviate and it may act normally that turn. A jump point created in realspace may be placed in any fire arc. Other arriving ships may act normally only if they also have Advanced Jump Engine.

AP — Add +1 to every Attack Dice result rolled for this weapon.

Beam — This weapon always hits on a roll of 4 or more, regardless of Hull. Each successful Attack Dice is rolled again and may continue scoring additional hits while it keeps rolling 4 or more. Beam weapons ignore Interceptors and may split fire only between targets within 4 inches of one another.

Double Damage — Double all Damage caused, including bonus Damage from Critical Hits. A Bulkhead Hit still causes 1 point of Damage.

Flight Computer — Crew Quality can never fall below 4. The ship ignores all penalties for being reduced to a Skeleton Crew, except that Troops are still halved and Fleet Carrier is still lost.

Gravitic Energy Grid — Reduce the total Damage and Crew loss caused by each separate weapon attack by the Gravitic Energy Grid score. Damage and special effects from Critical Hits are never reduced.

Huge Hangars — Carries a number of Drakh Light Raiders, Heavy Raiders, or Scouts equal to the listed score. They cannot begin deployed, but launch and recover as fighters and yield Victory Points normally if destroyed. An Amu Mothership may instead use 8 slots for each Cruiser or Strike Cruiser, or 2 slots for each Fast Destroyer, Light Cruiser, or Patrol Cruiser.

Precise — Add +1 to every roll made on the Attack Table for this weapon.

Twin-Linked — Any Attack Dice from this weapon that fail to hit may be re-rolled.
