Ship Rules Reference

FLEET RULES
Super Manoeuvrability — A Vree ship may move less than half its Speed. When it does, it may move as though it had the Super Manoeuvrable trait. Telepathy — All Vree receive +1 on Crew Quality checks. Vree telepaths cannot disrupt Shadow vessels.

TRAITS AND WEAPON RULES	
Anti-Fighter — When an enemy fighter flight moves into base contact, roll a number of Attack Dice equal to the Anti-Fighter score before the dogfight is resolved. Each die that rolls 4 or more destroys the fighter flight. Anti-Fighter may be used once per turn. Double Damage — Double all Damage caused, including bonus Damage from Critical Hits. A Bulkhead Hit still causes 1 point of Damage. Escort — Before any Anti-Fighter fire, divide this ship's Anti-Fighter dice between itself and any allied ships within 8 inches and line of sight. The assigned dice are then used by those ships for that turn.	Jump Engine — The ship may use the Initiate Jump Point! Special Action to enter or leave hyperspace. Follow the hyperspace and jump-point rules when placing the jump point, checking for deviation, and moving ships through it. Scout — At the start of the Attack Phase, a Scout within 36 inches may pass a Crew Quality check of 8+ to reduce one target's Stealth by 1 for the turn, or to let one non-Beam, non-Energy Mine, non-Twin-Linked weapon system attacking that target re-roll all failed Attack Dice. Stealth — After declaring attacks against this ship, the attacker must roll at least the listed Stealth score to lock on. Apply the normal modifiers for range, Scouts, and other effects. If the lock-on roll fails, those weapons may not attack another target. Twin-Linked — Any Attack Dice from this weapon that fail to hit may be re-rolled.
