

BRAKIRI SYNDICRACY

WAR

CIDIKAR-CLASS HEAVY CARRIER

Initiative: +0

Ship Rules Reference

FLEET RULES

Fighter Replacements — Any ship carrying one or more Falkosi flights may replace any number of them with Pikatos flights or Breaching Pods. Breaching Pods taken this way carry one Troop from the parent ship and do not include Troops of their own.

TRAITS AND WEAPON RULES

- AP** — Add +1 to every Attack Dice result rolled for this weapon.
- Beam** — This weapon always hits on a roll of 4 or more, regardless of Hull. Each successful Attack Dice is rolled again and may continue scoring additional hits while it keeps rolling 4 or more. Beam weapons ignore Interceptors and may split fire only between targets within 4 inches of one another.
- Carrier** — The ship may launch or recover a number of fighter flights in a turn equal to its Carrier score, instead of the normal limit of one flight.
- Command** — While this ship is on the table and is neither Crippled nor reduced to a Skeleton Crew, add its Command score to the fleet's Initiative. Command bonuses are not cumulative.
- Double Damage** — Double all Damage caused, including bonus Damage from Critical Hits. A Bulkhead Hit still causes 1 point of Damage.

- Fleet Carrier** — May deploy up to half its carried flights before battle. While operational, all fighter flights in the fleet gain +1 Dogfight. When a friendly fighter within 30 inches is removed, roll 5+ to recover it for relaunch next turn; apply -1 if an enemy ship was within 4 inches or it was lost in a dogfight, and +1 if within 10 inches of the carrier. Only craft the carrier could normally carry may be recovered. All benefits are lost if the carrier is Crippled or on Skeleton Crew.
- Interceptors** — Against the first incoming hit of the turn, roll a number of dice equal to the Interceptor score; any result of 2+ cancels that hit. Successful dice are rolled against the next hit needing 3+, then 4+, and so on. Failed dice are discarded. Once the required number reaches 6+, it remains 6+ for the rest of the turn. Interceptors refresh at the start of the next turn.
- Jump Engine** — The ship may use the Initiate Jump Point! Special Action to enter or leave hyperspace. Follow the hyperspace and jump-point rules when placing the jump point, checking for deviation, and moving ships through it.
- Lumbering** — The ship may make only one turn during its movement, regardless of the number of turns shown in its profile.
- Shuttles** — The listed score is the number of Troops this ship may land on a planet in one turn during a planetary assault.
