Ship Rules Reference

FLEET RULES

- Fighter Replacements** — Any ship carrying one or more Senti flights may replace any number of them with Razik flights or Breaching Pods. Breaching Pods taken this way carry one Troop from the parent ship and do not include Troops of their own. Rutarians may be bought separately, or up to four Senti flights may be replaced by Rutarians as one Patrol choice.
- Fighting Narn** — Centauri vessels will never surrender to the Narn and are immune to effects that would require them to surrender to Narn vessels, including Stand Down and Prepare to be Boarded!
- Mass Drivers** — A Primus may replace 5 AD of its forward Ion Cannon with one Mass Driver. An Octurion may replace 8 AD of its forward Ion Cannon with two Mass Drivers. Each Mass Driver has Range 10, Fore arc, 8 AD, and the Mass Driver, Slow-Loading, Super AP, and Triple Damage traits.

TRAITS AND WEAPON RULES

- Anti-Fighter** — When an enemy fighter flight moves into base contact, roll a number of Attack Dice equal to the Anti-Fighter score before the dogfight is resolved. Each die that rolls 4 or more destroys the fighter flight. Anti-Fighter may be used once per turn.

AP — Add +1 to every Attack Dice result rolled for this weapon.

Beam — This weapon always hits on a roll of 4 or more, regardless of Hull. Each successful Attack Dice is rolled again and may continue scoring additional hits while it keeps rolling 4 or more. Beam weapons ignore Interceptors and may split fire only between targets within 4 inches of one another.

Double Damage — Double all Damage caused, including bonus Damage from Critical Hits. A Bulkhead Hit still causes 1 point of Damage.
- Jump Engine** — The ship may use the Initiate Jump Point! Special Action to enter or leave hyperspace. Follow the hyperspace and jump-point rules when placing the jump point, checking for deviation, and moving ships through it.

Precise — Add +1 to every roll made on the Attack Table for this weapon.

Stealth — After declaring attacks against this ship, the attacker must roll at least the listed Stealth score to lock on. Apply the normal modifiers for range, Scouts, and other effects. If the lock-on roll fails, those weapons may not attack another target.

Twin-Linked — Any Attack Dice from this weapon that fail to hit may be re-rolled.
