Ship Rules Reference

FLEET RULES

Fighter Replacements — A ship carrying Starfury flights may replace all of them with another type of Starfury, provided the replacement is in service for the scenario or campaign date. It may also replace any number of Starfuries with Breaching Pods. Breaching Pods taken this way carry one Troop from the parent ship and do not include Troops of their own.

TRAITS AND WEAPON RULES

Anti-Fighter — When an enemy fighter flight moves into base contact, roll a number of Attack Dice equal to the Anti-Fighter score before the dogfight is resolved. Each die that rolls 4 or more destroys the fighter flight. Anti-Fighter may be used once per turn.

AP — Add +1 to every Attack Dice result rolled for this weapon.

Beam — This weapon always hits on a roll of 4 or more, regardless of Hull. Each successful Attack Dice is rolled again and may continue scoring additional hits while it keeps rolling 4 or more. Beam weapons ignore Interceptors and may split fire only between targets within 4 inches of one another.

Double Damage — Double all Damage caused, including bonus Damage from Critical Hits. A Bulkhead Hit still causes 1 point of Damage.

Interceptors — Against the first incoming hit of the turn, roll a number of dice equal to the Interceptor score; any result of 2+ cancels that hit. Successful dice are rolled against the next hit needing 3+, then 4+, and so on. Failed dice are discarded. Once the required number reaches 6+, it remains 6+ for the rest of the turn. Interceptors refresh at the start of the next turn.

Lumbering — The ship may make only one turn during its movement, regardless of the number of turns shown in its profile.

Twin-Linked — Any Attack Dice from this weapon that fail to hit may be re-rolled.
