Ship Rules Reference

FLEET RULES

Fighter Replacements — Any ship carrying one or more Nial flights may replace any number of them with Tishats, in scenarios set in 2231 or later, or with Breaching Pods. Breaching Pods taken this way carry one Troop from the parent ship and do not include Troops of their own.

Skin Dancing — Only Minbari fighters may attempt Skin Dancing. Move the fighter into contact with an enemy ship; close escorts may intercept normally. Roll one die: on 1-4 the fighter is destroyed and the target suffers a 1 AD Double Damage attack. On 5+, the fighter may attack only that ship this turn, may use all its weapons regardless of fire arc, and ignores the target's Interceptors.

TRAITS AND WEAPON RULES

Advanced Anti-Fighter — Use the normal Anti-Fighter rules, but add +1 to every Anti-Fighter die roll.

Advanced Jump Engine — When this ship enters realspace, its jump point does not deviate and it may act normally that turn. A jump point created in realspace may be placed in any fire arc. Other arriving ships may act normally only if they also have Advanced Jump Engine.

Agile — The ship need only move one quarter of its Speed in a straight line before making its first turn, and only 1 inch before making each subsequent turn.

AP — Add +1 to every Attack Dice result rolled for this weapon.

Atmospheric — This ship may enter a planetary atmosphere and take part in planetary assaults, including attacking ground targets and landing troops where the relevant rules allow.

Double Damage — Double all Damage caused, including bonus Damage from Critical Hits. A Bulkhead Hit still causes 1 point of Damage.

Flight Computer — Crew Quality can never fall below 4. The ship ignores all penalties for being reduced to a Skeleton Crew, except that Troops are still halved and Fleet Carrier is still lost.

Mini-Beam — Always hits on a roll of 4 or more regardless of Hull and ignores Interceptors. Unlike a Beam weapon, successful Attack Dice are not rolled again for additional hits.

Precise — Add +1 to every roll made on the Attack Table for this weapon.

Stealth — After declaring attacks against this ship, the attacker must roll at least the listed Stealth score to lock on. Apply the normal modifiers for range, Scouts, and other effects. If the lock-on roll fails, those weapons may not attack another target.
