Ship Rules Reference

FLEET RULES

Fighter Replacements — Any ship carrying one or more Frazi flights may replace any number of them with Gorith flights or Breaching Pods. Breaching Pods taken this way carry one Troop from the parent ship and do not include Troops of their own.

Fighting Centauri — Narn vessels will never surrender to the Centauri and are immune to effects that would require them to surrender to Centauri vessels, including Stand Down and Prepare to be Boarded!

TRAITS AND WEAPON RULES

Anti-Fighter — When an enemy fighter flight moves into base contact, roll a number of Attack Dice equal to the Anti-Fighter score before the dogfight is resolved. Each die that rolls 4 or more destroys the fighter flight. Anti-Fighter may be used once per turn.	Energy Mine — Choose a point in range and in the weapon's fire arc. Every object within 3 inches is attacked automatically. The attack ignores Interceptors and Dodge, converts all Critical Hits to Solid Hits, and may not be split. Jump Engine — The ship may use the Initiate Jump Point! Special Action to enter or leave hyperspace. Follow the hyperspace and jump-point rules when placing the jump point, checking for deviation, and moving ships through it.
