Ship Rules Reference

FLEET RULES

Fighter Replacements — Any ship carrying one or more Frazi flights may replace any number of them with Gorith flights or Breaching Pods. Breaching Pods taken this way carry one Troop from the parent ship and do not include Troops of their own.

Fighting Centauri — Narn vessels will never surrender to the Centauri and are immune to effects that would require them to surrender to Centauri vessels, including Stand Down and Prepare to be Boarded!

TRAITS AND WEAPON RULES

Beam — This weapon always hits on a roll of 4 or more, regardless of Hull. Each successful Attack Dice is rolled again and may continue scoring additional hits while it keeps rolling 4 or more. Beam weapons ignore Interceptors and may split fire only between targets within 4 inches of one another.

Double Damage — Double all Damage caused, including bonus Damage from Critical Hits. A Bulkhead Hit still causes 1 point of Damage.

Jump Engine — The ship may use the Initiate Jump Point! Special Action to enter or leave hyperspace. Follow the hyperspace and jump-point rules when placing the jump point, checking for deviation, and moving ships through it.

Precise — Add +1 to every roll made on the Attack Table for this weapon.

Super AP — Add +2 to every Attack Dice result rolled for this weapon.

Twin-Linked — Any Attack Dice from this weapon that fail to hit may be re-rolled.
